We would like to thank all of the anonymous participants for their cooperation with this questionnaire.

Out of the eighteen participating institutions, two (#1 and #16) responded with two different answers each. Since each answer contained some interesting information, and since more answer would mean more information for readers, the below included all these responses. These answers are marked '#1-a'/'#1-b' and '#16-a'/'#16-b' respectively, yet the characters 'a' and 'b' are for the sake of convenience only and do not carry any connotation.
